

Order of NOK 2 million to Vicotee AS

Drammen, Norway - 12 September 2018 - Norwegian company Vicotee AS, part of the Virinco Group.

Vicotee AS has received an order from a US Company to deliver Aurora Smart IoT Sensors during the next months, the order value is NOK 2 million.

Vicotee AS is a leading Internet of Things company (IoT), delivering Smart Sensors for scalable IoT Solutions to the professional market around the world.

Vicotee can be used wherever sensors are needed for monitoring purposes. Whether it is building automation, environmental monitoring, offshore, green energy, Smart Cities, healthcare, hospitals or homes, the Vicotee network solution offers more than 99.99999% network reliability even in the most challenging RF environments - equivalent to cabled network reliability!

The system provides ultra-low power, standards-based radio technology, time, frequency, and physical diversity to assure reliability, scalability, wire-free power source flexibility and ease of use.

About Vicotee
